

TIMELINE PROJECT

@CRYPTONIT63

CRYPTONIT

Crypto ON Intelligent Technology

Project Cryptonite, a decentralized information web3 platform.

The project familiarizes its participants with:

- market situations and conditions**
 - trading of popular assets**
 - insider information**
 - project news**

Launched the development of a proprietary web3.0 management platform and token that will allow you to keep up with the news and make it not only make finding important information more accessibility, but also will allow:

- keep up with security news in crypto**
 - will allow you to post an ad**
 - find a job or post your own job**
 - compare high and low risc projects**
 - hardware sale / purchase / service**
- ratings of service centers and crypto communities based on votes**
- comparison of returns on equipment / pools**
- related products and services marketplace**

Purpose: A large-scale decentralized platform integrating a multitude of tools, resources, and community-driven.
